FAQ

Are they edible ?

-Yes 100% we use edible ink and waffer paper

Do they have any flavor or smell ?

- Absolutely not they are odorless and flavorless will not affect your drink flavor

Can you print any design ?

-Yes we can print image/logo/text
(ONLY ISSUE IS THAT THEY PRINT LIGHTER color THAN REGULAR PRINTER. We can print free sample for you and send you pics before bulk order

What is turnaround time ?

Usually within 48 hours we will print cut and ship out to you. For big orders more than 500 toppers maybe up to 1 week time

Do they break easily ?

NO we use only high quality waffer paper and they will sit on the drink for a long time.

What is the shelf life ?

We send them to you in Ziplock bags and we suggest you store them indoors at room temp. Do not leave outdoor in humid and hot climate. Keep bag Ziplock when not in use. Also, if your hands are wet use tweezers to pick up otherwise the water will seep through and damage the rest in the bag

Which type of drinks they work best on ?

Usually drinks with a foam on top. Like pisco sour using egg white. Also drinks with pineapple juice and passion fruit puree. If drink doesn't have foam on top, then the drink toppers may dissolve faster, and ink will dissipate

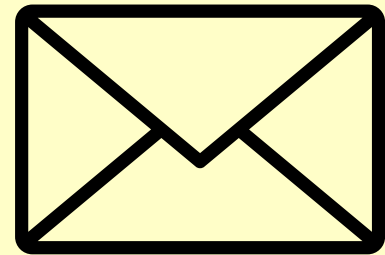

Can they be used on desserts?

Yes, we can print them on thicker grade paper just ask us to see if we have in stock.

Ingredients-Potato starch,water,humectant (E422),propylene glycol,preservative (e202) food color:E102 (tartrazine), acidity regulator (E330).E122-carmoisine,E124-ponceau,E133-brilliant blue
