## Metal Stencil Production

### Step by Step

Step 1 : Client sends us their PDF/PNG format logo

### Step 2 : Illustration and measurements analysis

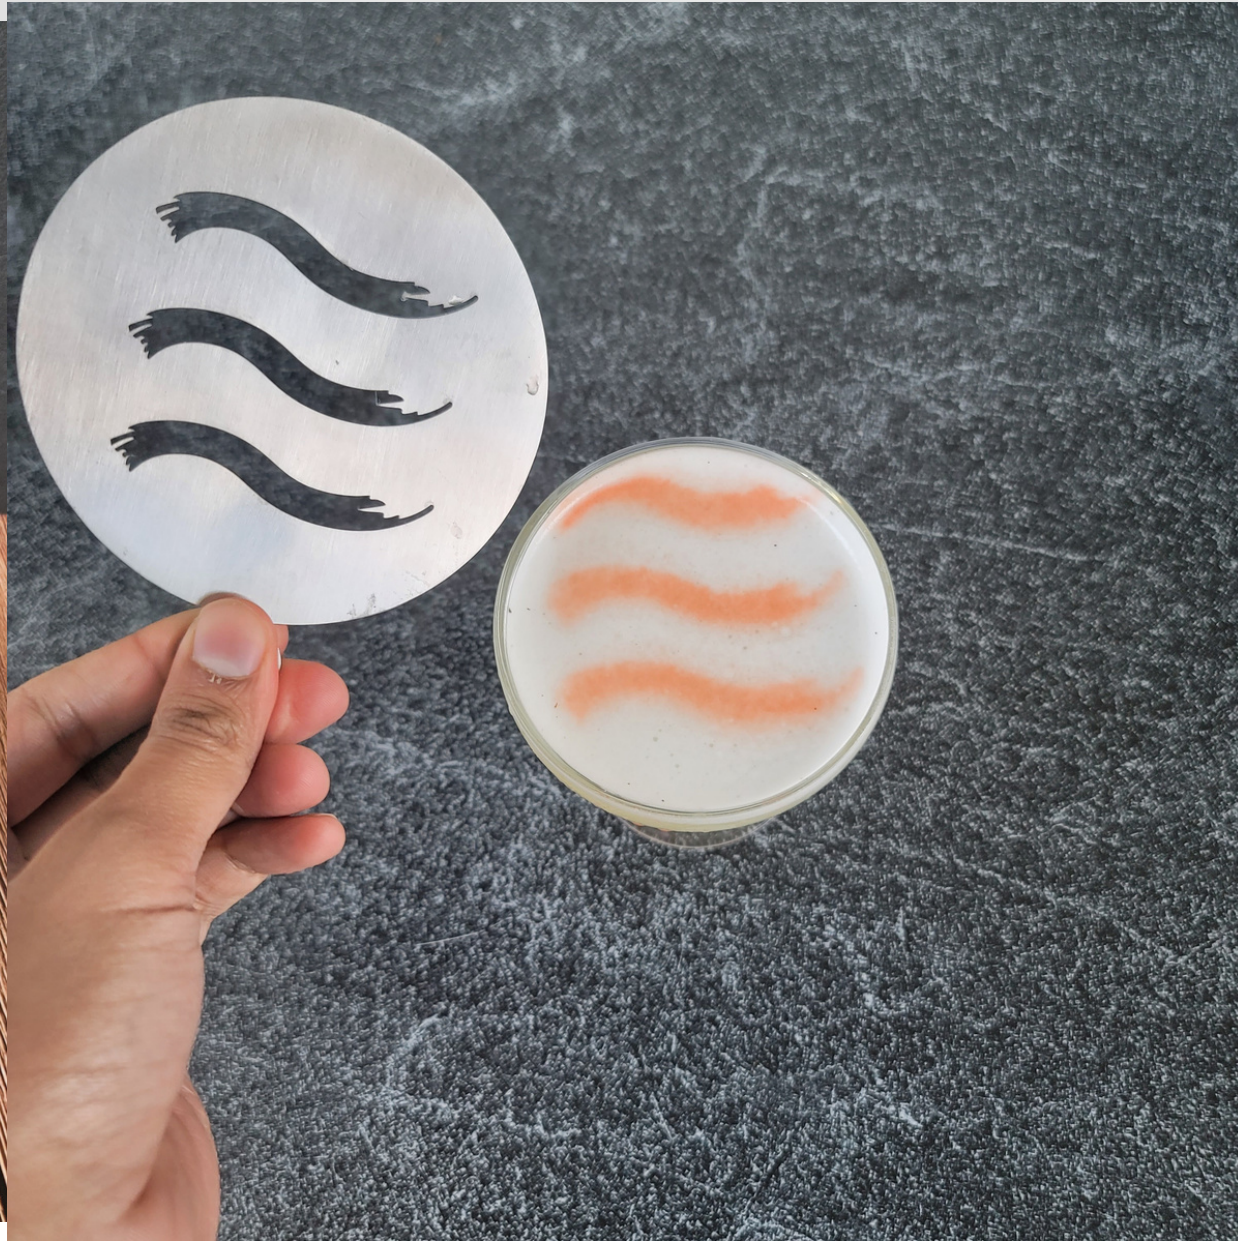

### Step 3 : Photoshop Visual before Production

### Step 4 : Final Product

Metal Stencils are a great tool that helps to brand cocktails and coffee with your logo.

Best application when drink has some foam on it.

For cocktails its recommended to use a spray and for coffee you can use a spice duster
